As part of a long-standing tradition, the Illinois Municipal League has offered a conference for newly elected officials following the municipal elections. This year's conference topics are designed to provide information on:

- duties of officials
- fundamental procedures of city and village government
- laws and regulations affecting municipalities

While the conference is designed primarily for new officials, it can serve as a refresher course for veteran officials. Be prepared for your new position by attending this important conference at the location of your choice.
